

REMARKS

This Amendment presents additional claims to methods of applying ink and removing ink during wash-up, including new independent claims of scope similar to allowed original independent claim 1. New independent claim 9 adds the additional step of applying dampening fluid to the form roller from a dampening roller. New independent claim 13 focuses on the wash-up steps and recites, inter alia, removing a mixture of ink solvent and residual ink from the form roller with the subtractive roller.

If any minor matters remain for consideration after entry of this Amendment, the Examiner is requested to contact the undersigned by telephone to resolve them.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
